BTS Selected as Finalist for GovStar Government Contractor Award

Innovator of tactical 3G/4G technology recognized for its excellence in the government sphere.

COLUMBIA, MD, July 18, 2011 –Today, BTS™ announced that it was selected as a finalist in the GovStar Awards, which recognizes excellence in the field of government contracting in the greater Washington, D.C. area. Presented by SmartCEO Magazine and Sheppard Mullin, the GovStar awards program honors local companies and nonprofit organizations for their technological innovation, workplace environment, growth, veteran support and ability to overcome significant challenges.

“We truly value the acknowledgment by GovStar for all of our hard work to build the company,” said BTS CEO, Sean Lane. “Since the company’s formation in 2008, BTS has been able to develop and implement products that make an immediate difference for the Warfighter on the frontlines. We never forget we are working for those men and women in uniform.”

In the last three years, BTS has established itself as a leading provider of tactical 3G/4G cellular communications technologies for the U.S. Government and private sector. BTS has been recognized for its leadership and workplace excellence with Sean Lane’s win as the Ernst & Young Entrepreneur Of The Year® 2011 Maryland Award winner in the Government category and the selection of BTS as one of Baltimore’s “Best Places to Work in 2011.”

“We are thrilled that BTS is recognized for its amazing achievements made only possible by our executive team and dedicated employees,” said BTS Chief Operating Officer, Craig Cummings. “Their hard work and excellence in the field is evident in our selection as a GovStar Awards finalist and the winner of numerous other awards this year.”

An independent panel of business leaders reviewed over 115 nominations and selected BTS as a finalist due to its rapid rise to success and exceptional business practices. Award winners in multiple categories will be announced at GovStar Awards program on October 13, 2011. A portion of the program's proceeds will be donated to the Wounded EOD Warrior Foundation, a 501(c)3 nonprofit organization that provides financial assistance to members of the military, and their families, who work with explosive ordnance disposal.
